- User-centred building operational rating: The evidence-based approach leveraging the EPB standards and the Smart Readiness Indicator**
Simona D'Oca, (f), Project Manager and Researcher, Huygen
-
- 13:25** **Closing remarks**
Frank Hovorka, (m), President, REHVA

NOVICE

NOTE

Overall close to gender balance has been achieved.

Our session comprises of a keynote presentation and a couple of interactive discussions under a mixed format of moderated panel debate and Q&A and thanks to Build Up team it is organised as a digital policy session on the Build Up portal.

For maximising audience interaction, the organisers opted for a blended approach meaning that the lightning talks/listening part has been digitised and will be made available to attendees prior to the actual digital policy session.

Several technical chairs will proactively be managing the session preparation, promotion and overall smooth flow of the actual session (including Q&A).
