

Triple-A Capacity Building Webinars

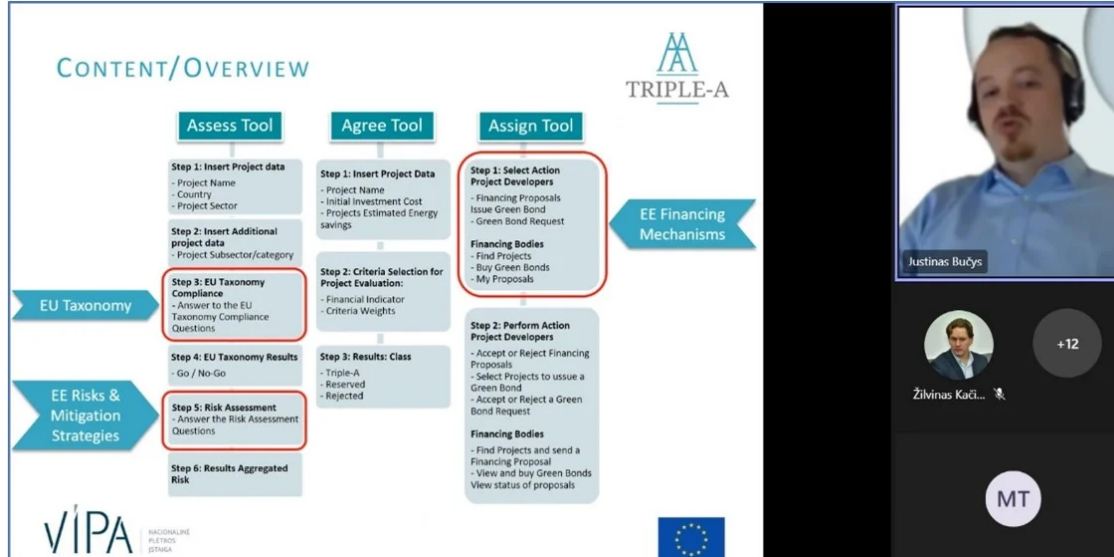

Financing Energy Efficiency

Vol. 2: June 2021

Triple-A has the pleasure to present you the outcomes of the 2nd round of the **Capacity Building Webinars** implemented in June 2021. The webinars organised in Lithuania, Bulgaria (follow-up webinar), Italy, Germany and **shared knowledge** related to important issues that affect the **financing of energy efficiency projects in the EU**. Key topics discussed were the **EU Taxonomy** regulation, **risks** related to energy efficiency projects and **financing models** that support investments in this area.

Read our previous **Press Release, Issue June 2021** to learn more about the outcomes of the 1st round of the Triple-A **Capacity Building Webinars** that were held in May 2021. This 1st round of **Capacity Building Webinars** was organised in Bulgaria, Czech Republic, Greece, Netherlands and Spain.

Country: Lithuania

Triple-A Lithuanian partner **VIPA** organized the **5th Triple-A Capacity Building Webinar** on the 14th June 2021. During this webinar the **Standardised Triple-A Tools** were introduced and an in-depth explanation was given on how users could use them to **explore financing for projects** and how **financing authorities can find attractive investments** in their respective fields of energy efficiency. The additional **Tools' functionalities** were also presented in a dedicated session following the interest received from participants of the webinar.

Country: Bulgaria

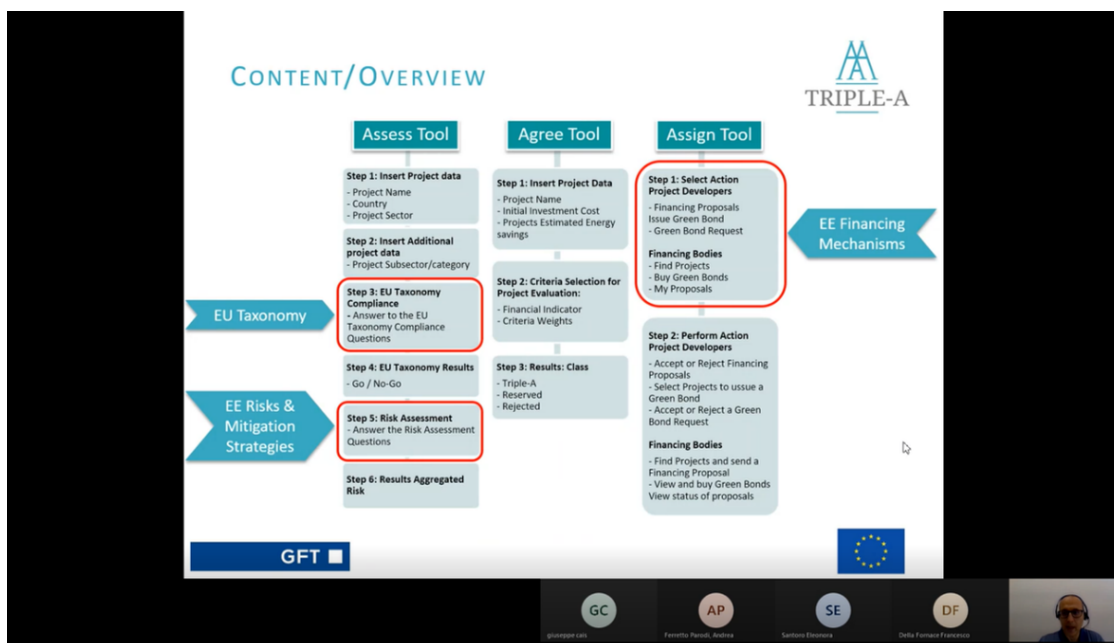

Due to the astounding success and interest received after the **1st Triple-A Capacity Building Webinar in Bulgaria**, Triple-A Bulgarian partner **NTEF** hosted a 2nd “follow-up” session on June 18th.

The intention was to **help users better grasp the Standardised Triple-A Tools** for evaluation of energy efficiency project ideas, as well as to offer the most appropriate ways to finance energy efficiency projects specific to Bulgaria. An

overview of funding sources, as well as information on the **most common models for financing** such projects were provided together with some upcoming more **“innovative” models**. The event was participated by investors and financiers, energy service companies, construction companies, representatives of municipalities and ministries.

Country: Italy

Despite the importance of energy efficiency financing, it remains a challenge for stakeholders how to identify which investments can foster sustainable growth while also having the capacity to meet their commitments from the first stages of investment generation.

During the Italian webinar on the 29th June 2021 **GFT** partners presented an **overview of the current EU Taxonomy Regulations**, suggested some **risk and mitigation strategies** to combat these challenges, and presented an overview of possible **financial instruments** that can maximise the projects potential. The webinar was participated by stakeholders, mainly companies and project developers.

JRC Capital Management, Germany

Contact : ktripodi@jrconline.com

Country: Germany

German **Triple-A** partner **JRC Capital Management** hosted the 8th and final session of the capacity building webinar series across Europe on the 30th June 2021. The act of financing energy efficiency projects remains vital for achieving the EU's energy and climate goals. However, as became apparent during the webinar, it remains a challenge for stakeholders to **identify investments that can promote sustainable growth**.

To help alleviate this pressing issue, JRC presented and explained the **Triple-A** developed **standardised toolset** to its participating stakeholders. The webinar was participated by stakeholders from financing, energy and research sectors.

Upcoming Events

Triple-A Regional Training Workshops

Following the successful organisation of the **Triple-A Capacity Building Webinars** on the theoretical aspects that affect the energy efficiency financing, the **next series of Triple-A events** to be organised this autumn will focus on **training** the interested parties based on the experience gathered.

The **Triple-A Regional Training Workshops** will be held in the eight case study countries with a focus on **training** and **know-how transfer** for the familiarization of the participants with the **Triple-A** Methodology, **Tools** and **Database** towards the **identification of attractive energy efficiency projects** in the targeted countries.
