This session aims at providing SMEs and all relevant stakeholders with **real practical examples** and **guidelines** on how to **enable the implementation of energy efficiency solutions** to facilitate the **energy transition**. It will present available services, tools and policies that could unlock a considerable amount of energy/cost savings and assist in achieving emission targets, by sharing the actions, experiences and outcomes of the H2020 funded projects [DEESME](#), [E2DRIVER](#), [ICCEE](#), [INNOVEAS](#), [SME in Power Efficiency](#), [SPEEDIER](#) and [Triple-A](#).

The event focuses on the analysis of three key aspects of energy efficiency improvements in SMEs around Europe:

1. **Barriers** and **opportunities** in the implementation of energy efficiency solutions.
2. Available **best practices** and **case studies**, such as trainings, tools, services etc.
3. Current **policies** affecting the implementation of energy efficiency measures and their potential improvements in the upcoming years.

During the webinar **short presentations** of the 7 projects outcomes focusing on SMEs, will be presented, while **interactive activities**, and a final **roundtable** open to questions related to the session topics that have been presented will take place.
