

EVENT: Towards a decarbonised Europe

INCREASING ENERGY EFFICIENCY IN SMES FOR A CLEAN ENERGY TRANSITION

19/10/2021

09:00 - 10:30 CEST
Online

Building on the results of 7 EU-funded projects, this interactive session will provide guidelines and good practice to implement energy efficiency solutions and facilitate the energy transition.

SMEs have a high untapped energy saving potential which can be unlocked by overcoming structural, market and financial barriers.

Hear about available services, tools and policies that can unlock considerable amounts of energy/cost savings and assist in achieving emission targets.

AGENDA

- 9.00-9.10 Welcome and challenges presentation
by Erudino Llano (Training expert at CIRCE foundation. Project Coordinator of E2DRIVER)
- 9.10-9.30 Engagement of stakeholders
Using stakeholder consultation approaches for increasing Energy Efficiency in SMEs, by Ivana Rogulj (Climate and Energy Expert at IEECP. Project Manager of DEESME and ICCEE)
- 9.30-9.50 Implementation of Energy Efficiency in SMEs
How to overcome the implementation barriers with communication, easy-to-manage and ready-to-use tools, best practices and trainings and more, by Mara Corbella (European Projects coordinator at IIPLE. Project Coordinator of INNOVEAS).
- 9.50-10.10 Policies related with Energy Efficiency in Europe focused on industry and SMEs and ways to improve it
How policies can drive the uptake of energy efficiency in SMEs by Pdraig Lyons (Head of Group IERC, Project Coordinator of SPEEDIER)
- 10.10-10.30 Round table
Moderated by Prof. Grigoris Papagiannis at Aristotle University of Thessaloniki, Greece, coordinator of SMEmpOWER)

Registration is free but compulsory, at the following link:
