Project Description Title

Enhancing at an Early Stage the Investment Value Chain of Energy Efficiency Projects

Description

The overall aim of the EU-funded Triple-A project is to assist financial institutions increase their deployment of capital in energy efficiency, making investments more transparent. Triple-A scheme will identify which investments are considered as Triple-A, fostering sustainable growth, already from the first stages of investments generation and pre-screening, where no standardization exists. Triple-A will provide risk profiles and mitigation policies, including a Web-based database, enabling national and sectoral comparability, market maturity identification, experiences exchange, reducing thus uncertainty for investors. The project will develop standardised Triple-A tools, efficient benchmarks and guidelines, through which in-country demonstrations of the investments and recommendations are envisaged. The case-study countries are eight Member States, namely Bulgaria, Czech Republic, Germany, Greece, Italy, Lithuania, The Netherlands and Spain.
